

DARK TIMES

VOLUME 17, ISSUE 5

MAY 2016

FROM THE PRINCE'S DESK

There are a number of points I would raise with you all this evening and I urge you to take note of all of them.

Firstly, can I remind you all of Sheriff Fletcher's warning to remove all ghouls within your possession within the city as soon as possible. Throughout the month there have been various attempts to kidnap such people by the Hunters that have decided to squat in our city for the time being. Until this infestation is dealt with you should ensure that your people are either removed or protected, preferably the former least our enemies discover more about you than you would wish them to know.

On the subject of Hunters I would like to congratulate those who took part in dealing with this problem this month, although there is still much work to be done we are making progress. Your efforts have not gone unnoticed and they will be rewarded once this issue is eradicated once and for all.

Secondly, the recently arrived Circus is to be avoided at all costs and will be departing our domain for pastures new as soon as possible. Their acceptance into this domain has been rescinded due to actions that have jeopardised this city's safety. If anyone had any dealings with this Circus if they could make themselves known to me as soon as possible.

Thirdly and finally; you should be

aware that Prince Houblon of London has decreed that the Treaty of Durham is null and void. Following this announcement the Prince of London has exiled all Toreador from his domain. It is expected that the Prince of Birmingham and the Prince of York will follow suit. I will make a further announcement on this during the evening however, for now, let me make something clear.

Any Toreador that is looking for refuge within the domain of Glasgow will be welcomed with open arms, so long as they pass the same 'vetting' process as everyone else who is new to my domain.

Any Ventrue that is looking for refuge within the domain of Glasgow will also be welcomed with open arms, again, so long as they pass the same process.

However, *anyone*, that is looking to cause trouble, looking to stoke the fires of this ridiculous spat within my domain, be they Toreador, Ventrue or any other clan will be dealt with accordingly.

It will not be tolerated.

Prince Edelstein.

FROM LEVI TIUS

Greetings Kindred of Glasgow,

I am putting together a gentrification program for the city of Glasgow, beginning with its waterways. If you have an interest in support of this program please approach me. This will eventually expand to other areas of the city and I am there are benefits to be had for those that contribute.

Elder Tius

FROM ANGUS MACDONALD

Kindred of the Camarilla! A rallying call!

I offer you an opportunity for power and glory.

As you may have heard, I have arrived in Spain in fine style and have taken Pamplona in a night along with my trusty friend Haile and the redoubtable kindred of San Sebastián. The first new Camarilla domain to have been opened in centuries in Spain, if not Europe as a whole.

I intend to continue my campaign here and conquer more and more domains from the Sabbat.

Due to the nature of the war we fight here in Spain, I need kindred to hold and defend the new domains we take. And there it is... You're golden opportunity... Come and fight with us. Conquer domains. Meet influential kindred. Prove your worth. Cover yourself in glory. And then rank, position, and power will be yours as you carve out your place in the new frontier of the Camarilla.

Come and fight with us. You owe it to yourselves. And you certainly owe it to the Camarilla.

Angus McDonald of Pamplona.

FROM SPAIN

Pamplona has fallen

For the first time in well over a century the status quo in the standoff with our old enemy has changed. Forces accumulated in San Sebastian and poured over the complacent and ill prepared forces of the Sabbat weakened by generations of infighting.

Your former Prince Angus destroyed the Bishop in single combat and without the semblance of leadership the other packs where quickly despatched.

This though is only the beginning. Even as you read this forces in Barcelona and Madrid are assembling to attempt to take this newest Camarilla domain from us.

Before my trip I did not understand the pure joy one can find from besting an opponent on the field of battle. Skills honed for dance and violin play are now being used to stay one step ahead of the axe, skills used to shine on stage are now being used to draw the enemies attention while my Prince and master despatches foes from behind.

I did not know just how bored I was picking battles with half the court of Glasgow just for something entertaining and challenging to do and now here I have found the ultimate reason to rise each night, to become more than I was and to celebrate in each dawn's embrace.

If you are martially inclined or even have transferable skills I would urge you to take part in at least one or more of the upcoming raids. Contact the sheriff of San Sebastian and he will find a suitable role for you.

Experience what it means to gamble with high stakes and measure your strength against the degenerates of the Sabbat.
